## **Life without limits - Nick Vujicic at the Krakow TAURON Arena**

2016-05-12

**Nick Vujicic - currently the world's leading motivational speaker will be the main star of the "Life without limits" Congress, which will be held on October 1st 2016 in the Krakow TAURON Arena. The event programme, besides lectures by the world-class leaders, will also include artistic performances.**

Life without limits is an event addressed to everyone regardless their age, faith and any other limitations.

The main star of our event is Nick Vujicic - currently the greatest motivational speaker in the world. The above description does not begin to adequately define the greatness of this man. How do we describe someone who was born without arms and legs but nevertheless did not allow this to prevent him from living a normal life, and, moreover, used this as a motivation to inspire millions of people? - say the organisers and they add: "His life and who he is deliver an extremely important message - live without limits irrespective of your real-life situation. We want his story to form the basis of an extraordinary artistic show - dancing, music and singing, which will stimulate all the senses and give people the energy to overcome their limitations."

The "Life without limits" Congress will be held in the Krakow TAURON Arena on October 1st 2016 (Saturday). It starts at 11:00 and ends at 20:00.

Information concerning event registration and the sale of tickets can be found at:
