13th European Conference on Antennas and Propagation (EuCAP) in Krakow

2019-04-04

EuCAP provides a forum for the European R&D communities in the antennas and propagation domain, at both academic and industrial levels and is one of the two largest conferences covering this field in the world. Krakow have this privilege to host the 13th edition of EuCAP from 31 March to 5 April 2019.

A wide variety of presentations with acknowledged scientists and experts participation, ranging from mobile and satellite communications to medicine will be delivered. The exchange of information and the access to the latest developments is also possible through industrial workshops, technical tours and industry exhibition located on 3 levels of ICE Krakow Congress Centre demonstrating software, equipment and technology answering the current call of the market. This prestigious event gathered 1300 participants from all over the world.
