Moving around Kraków by bicycle

2011-04-07

The system of non-service city bike rentals was launched in Kraków in November 2008. Cyclists can use 13 bicycle stations situated in various points of the City. Flexible subscription payments adapted to the inhabitants' and tourists' needs are of great convenience.

In order to become a BikeOne user it is enough to have a mobile phone, a bank account and Internet access. Registration takes up about 10 minutes and is conducted entirely at the following website: www.bikeone.pl.
