

Conference Facilities

2019-05-13

In Krakow you can find a lot of venues with conference halls. Business meetings can be organised not only in conference venues, but also theatres and concert halls adapted for the purpose - Krakow Opera (about 800 seats), the Philharmonic Hall (700 seats) and the Juliusz Słowacki Theatre, considered an exclusive "Krakow salon", which has a three-tier air-conditioned 530-seater auditorium. Conferences and symposia are also conducted in hotels, which offer conference rooms with up to 2000 seats. There are also the unique interiors of Krakow's museums, where MICE events are organised.

To meet the expectations of our guests, the Urban Municipality of Krakow decided to build the [ICE Kraków Conference Centre](#), a venue with conference and concert facilities opened September 16th 2014. We are confident that it will be a major meeting venue and a space conducive to creativity, which will result in comprehensive development in many areas in the near future. Two important projects have also been finished in 2014 in Krakow: The building of the Event and Sports Venue in the heart of the Czyżyny district "TAURON Arena Kraków", funded by the city, and the EXPO Krakow International Fair and Congress Centre erected by a private investor.
