Krakow lights up in solidarity with Spain, France and Germany

2020-04-23

We proceed with the initiative of lighting up urban objects to express solidarity with the countries that are now most gravely hit by the coronavirus crisis.

On March 27, the screen of the Tauron Arena Krakow shone with the colours of the Spanish flag, the ICE Krakow Congress Centre lit up with the German colours and the Father Bernatek's Footbridge was illuminated in the colours of the French flag.

The number of people struck with COVID-19 in these countries is enormous and every day the media report new cases and the dramatic effects of the infection.

In this way Krakow manifests solidarity with the nations of Spain, Germany and France in the moments so extremely difficult for them.
