Krakow projects promoted on OWHC website

2020-06-08

The OWHC, to which Kraków belongs, as well as other important international organisations and institutions have joined in the fight against the global crisis of the coronavirus epidemic.

In order to support the activities of the associated cities and to facilitate the exchange of good practices, the OWHC has launched a platform dedicated to this purpose on its website. In the online space, cities present their innovative projects helping to combat the negative effects of the epidemic. Krakow also shares its experience.
