What is the song in the heart of Frankfurt am Mein?

2021-02-03

As the centre of a metropolitan area with several million inhabitants, Frankfurt am Main has a special place in German history. It is here that the country's rulers were elected and crowned, and here that the first democratic parliament worked towards German unification in the early 20th century. No wonder the city has a climate of progress, openness and multiculturalism.

The Frankfurt chant "**At the heart of Europe**" is the informal anthem of the city and also of its football team! Listen to it!
